

# Peppermint White Chocolate Spoons

## Ingredients:

- **THESE** spoon molds
- 1.5 cups white melting chocolate
- 2 finely crushed candy canes
- Hot cocoa mix of choice

## What I Packaged with Ours:

- Fillable ornaments- I bought at dollar tree
- Marshmallows
- Mug toppers
- Candy canes

## Directions

1. Melt white chocolate in the microwave according to package instructions.
2. Place candy canes in a ziplock bag and crush with a meat hammer or rolling pin- this is a great step for the kids to help with
3. Mix crushed candy canes in with the white chocolate and pour into molds (don't worry if it isn't perfect- it will still work!)
4. Take a small broken piece of candy cane and add it to the neck of the spoon- this will add reinforcement. Cover with chocolate.
5. Place in the freezer for 10 minutes
6. Pull silicone mold away from the chocolate- this is the easiest way to remove!
